Dermatoglyphic Multiple Intelligence (DMI) Test

Identify the Hidden Potential
& Learning Style of your child

ThumbRule Technologies

| Singapore | China | Thailand | Malaysia | Taiwan |

Is your child more "Intelligent"
than you can comprehend?

Does your child learn better by
"Hearing", "Seeing" or "Doing"?

Is your child better at
"Planning" or "Execution"?

Is your child more "Logical" or "Creative"?

Is your child a "Quick" or a "Slow" learner?

Does your child have a Special Talent
you don't nurture?

Can't find answers...!!!

And you thought you know your
child very well

DO YOU?

ThumbRule DMIT technique has been developed by scientists and research experts from World renowned universities, and is based on knowledge from **Genetics, Embryology, Dermatoglyphics, Psychology, Neuroscience.**

It has helped lakhs of students in past 10 years in China, Indonesia, Malaysia, Singapore, Thailand, Taiwan.

DMIT will reveal following information about your child

1. Intrinsic potential
2. Multiple Intelligence Distribution
3. Dominant and Preferred Learning Style
4. Learning Communication Character
5. Allocation of various abilities
6. Psychological and Planning Capability
7. Learning Sensitivity
8. Innate Work - Management style

The "**Theory of Multiple Intelligence**" was proposed by Prof **Howard Gardner of Harvard University** in 1983 in his path-breaking book "Frames of Mind"

- * To redefine the concept of intelligence
- * Address the question whether methods which claim to measure intelligence are truly scientific

Prof. Howard Gardner

Awarded 26 Honorary degree

Chosen amongst "100 Most Influential Thinkers in the World"

After years of extensive research he defined 8 types of intelligences. Till then a common, yet faulty method of checking the intelligence level of a child was an IQ test.

Its uses only language, maths and logic as a base to find the IQ level. It completely overlooks talents in areas like sports, music, art, communication etc.

The 8 Multiple Intelligences

1. Visual - Spatial
2. Verbal - Linguistic
3. Logical - Mathematical
4. Bodily - Kinesthetic
5. Musical - Rhythmic
6. Inter - personal
7. Intra - personal
8. Naturalistic

* The 8 different facets of intelligence are not necessarily dependent on each other & seldom operate in isolation.

* Every normal individual possesses varying degrees of each of these facets of intelligence.

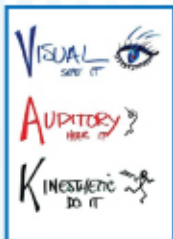

* The implication of these theories is that learning/ teaching should focus on the particular intelligence of each person; and use the right teaching methods and styles.

* Motivation techniques and communication styles should also be child-focused, as every child is unique.

Learning Styles

Learning styles are various approaches or ways of learning. They involve educating methods, particular to an individual that are presumed to allow that individual to learn best.

Most children favor some particular method of interacting with, and processing information.

The 3 learning styles are

1. Visual
2. Auditory
3. Kinesthetic

Learning Sensitivity

Learning sensitivity reflects the degree and speed of coordination between the nervous-muscular system, reflecting one's confidence capability and efficiency, in simple terms, how fast one carry out the thoughts into actions.

Work Management Style

The report also reveals:

- * Character & Behavioural traits
- * Suitable work environment
- * Conversation style & Communication requirements

Need for DMIT Concept in India

Above 12,000 students commit suicides in India due to exam relates stress.

Is our educational system and parenting style going horribly wrong somewhere?

Are we stressing our children too much?

DMIT helps you understand the behavioural characteristics & communication need of your child...!

This goes a long way in reducing stress in children...!

Every child is born with unique abilities and gifts.

Let help them discover these talents, and nurture them with our love and support...!

The 2 most beautiful things a parent can gift his child are:

Roots & Wings

ThumbRule DMIT is an effort to give children a Stress-free and Happy life
